cognitive psychology there
are at least two models
which describe how visual
attention operates. These
models may be considered
loosely as metaphors which
are used to describe internal
processes and to generate
hypotheses that are
falsifiable. Generally
speaking, visual attention is
thought to operate as a
two-stage process. In the
first stage, attention is
distributed uniformly over

Business Communication.
Business Communication
means the materialization
(e.g. paper, screen views)
of quantitative information
for analytical and reporting
objectives. We organize
business communication
into products (e.g. reports,
presentations, statistics,
analytic applications),
consisting of one or more
