psychologists Jonathan Haidt and Jesse Graham, building on the work of cultural anthropologist Richard Shweder; and subsequently developed by a diverse group of collaborators, and ... Tue, 15 Jan 2019 10:35:00 GMT
Moral foundations theory - Wikipedia - Habituation is an example of non-associative learning in which the strength or probability of a response diminishes when the stimulus is repeated. The response is typically a reflex or unconditioned response. Thus, habituation must be distinguished from extinction, which is an associative process. In operant extinction, for example, a response declines because it is no longer followed by a reward. Learning - Wikipedia - Topical Software. This page indexes add-on software and other resources relevant to SciPy, categorized by scientific discipline or computational topic. Topical Software - SciPy.org -
